

# THE OXBURGH TABLE

*The oxburgh table in oak | whitewash (oiled)*

## DESCRIPTION

An elegant refectory table inspired by the early architecture of Oxburgh Hall.

Made to measure to ensure the oxburgh table fits your space perfectly. The simple design also lends itself to being customised – in the third image you can see a beautiful prep table that includes drawers and a deep shelf.

We typically make the oxburgh table in solid oak. Our greywash finishes give the table a relaxed and time worn feel, and in our darker fumed or traditionally stained finishes the table can appear more stately, evoking the richness of early English furniture.

---
